CAPABILITIES STATEMENT

Engineering solutions. Dependable operations.

ThunderStorm Solutions, LLC (TSS) is a minority-owned small business based in Cumberland, Maryland. We support government agencies and prime contractors with engineering, technology, physical security, and program support services.

CORE CAPABILITIES

SYSTEMS ENGINEERING, INTEGRATION & TEST

Requirements and interface architecture
Instrumentation and data collection
Configuration management
Verification and acceptance testing

TECHNOLOGY & CYBERSECURITY

Infrastructure and dependency assessments
Network design and configuration
Access control and connectivity testing
Migration and rollback planning

PHYSICAL SECURITY & SYSTEMS INTEGRATION

Access control and video surveillance
Coverage and integration assessments
Commissioning and alarm workflow testing
Operator procedures and training

PROGRAM SUPPORT & ENGINEERING MANAGEMENT

Milestone and schedule reporting
Risk, issue, and action registers
Program dashboards and review templates
Reporting ownership and escalation

ILLUSTRATIVE PROJECT APPLICATIONS

TEST SYSTEM MODERNIZATION

Integrated instrumentation and automated reporting support repeatable testing and traceable results.

NETWORK INFRASTRUCTURE TRANSITION

Phased migration and rollback planning support a documented, maintainable network environment.

FACILITY SECURITY INTEGRATION

Coordinated access control and surveillance support consistent event monitoring and alarm response.

PROGRAM REPORTING IMPROVEMENT

Shared dashboards and registers clarify milestones, accountable owners, and unresolved risks.

Illustrative examples only. Customer identities are proprietary.
